Dear Mall

Oct. 1898

Congratulations on the Anatomical Bulletin! I spent 'Church-time' yesterday morning reading it & got 'hauled over the coals' for not joining my family at St Pauls! Do you not think that with vol. X the Bulletin might be made the organ of the School? We should not throw all the work on Hurd - an Editorial Committee - one from each Department, with a salaried man to collect material & read proofs could manage it very well

Sincerely yours

W^m Osler
